

Strategically Planning for Sustainability

Resources shared during RMOMS Webinar

December 12, 2023

- [Georgia Health Policy Center Sustainability Framework 2.0](#)
- [Sustainability Resources](#) on RHIHub
- [Network Health Scorecard](#) to support Network member retention
- [The Wilder Collaboration Factors Inventory](#): Assessing Your Collaboration’s Strengths and Weaknesses
- [Social network mapping](#) to visualize partnership connections
- Power mapping to identify influential partners (*ask your TA provider for resources/potential site visit for this process*)
- Network member/partner screening tool to assess potential new partners (*ask your TA provider for a copy if interested*)
- Telling your network’s story– communication tool to tell your story to enlist support and engagement (Ask your TA provider if you’re interested in this tool.)
- Questions to guide data collection and use to engage partners in evaluation (see below)

Who	Questions of interest
Staff	<ul style="list-style-type: none"> - What data will help you know that the program is working as anticipated? - What are their questions of interest related to quality of care/quality assurance? - What is available within your current tracking/data systems?
Funders	<ul style="list-style-type: none"> - What data would show you that this program is having the desired impact? - What is important for your Board of Directors when making funding decisions?
Partners	<ul style="list-style-type: none"> - How does this program further your organization’s mission? - What metrics is your leadership interested in?
Payers/Gov. Champions	<ul style="list-style-type: none"> - What data are needed to help you better advocate or reimbursement and policy changes? - Who will you need to communicate data results to and in what form will they find it most helpful?
Patients/Clients	<ul style="list-style-type: none"> - Satisfaction, quality of experience - Accessibility
